Premium	2023.4.0	fix	User Settings	91344	Tools > Users' Settings... > Properties of a user > Tab Time Clock sometimes absurd amount of Keys and Clicks are displayed
Premium	2023.4.0	fix	E-Mail	91623	Email Center: On new messages (e.g. replies) body appears grey or white and needs to be highlighted to be displayed
Premium	2023.4.0	fix	E-Mail	91627	Email Center - Attachments are not visible when the underlying file has been moved or removed
Premium	2023.4.0	fix	GoldMine Link for Microsoft Outlook	91696	GoldMine Link for Microsoft Outlook - Users link manually sent e-mails to GoldMine with attachment(s), the email links to GoldMine but many times does not link the attachments (neither on file server nor as the email attachment reference)
Premium	2023.4.0	fix	GoldSync	92173	Synchronizing numeric fields with decimals will round the field content on the retrieving side
Premium	2023.4.0	fix	Notes Tab	92374	Notes Tab: Sporadic no content visible when trying to edit existing Notes
Premium	2023.4.0	fix	GoldMine Plus for Microsoft Office	92627	Terminal Server - GoldMine Plus for Word/Excel - Performance issue when starting Word with GoldMine Add-in activated (takes more than 30 seconds without a mail merge)
Premium	2023.4.0	fix	E-Mail	92935	The tab of the email changes when the autosave draft is active along with Show Next message after delete/complete active and Complete original message not active
Premium	2023.4.0	fix	Activity List	93452	Activity list >> E-Mail >> Filed does not refresh (or selecting date or user) >> Eventlog errors indicate Ambiguous column name "CREATEBY" (also possible LASTTIME, LASTDATE)
Premium	2023.4.0	fix	Cases	93790	Case Tasks with alarms and certain colors assigned will show in Alarm notes E-mail body unavailable
Premium	2023.4.0	fix	E-Mail	93835	The subject is cut off in the E-mail Center when the From Friendly name and the subject of an email exceed 100 characters
Premium	2023.4.0	fix	GoldMine Link for Microsoft Outlook	94070	GoldMine Link for Outlook: When an attachment (e.g. an Outlook item) has a tab in the name, Link email failed message with Error in SigCreateStorageEx: STG_E_INVALIDNAME in the Log file
Connect	2023.4.0	fix	GoldMine Connect	94124	GoldMine Web - Reply to all does not bring over additional TO recipients from the original email into the new email
Premium	2023.4.0	fix	GoldMine Link for Microsoft Outlook	94469	GoldMine Link for Outlook: A user having permission to access another user's mailbox (tested with Office 365), although auto-linking is not set at all (for both users), the email will be linked under the user accessing the original sender's mailbox
Premium	2023.4.0	fix	E-Mail	94758	Auto-saving drafts feature causes emails to be completed, although the user does not expect this as they dismiss the draft email

Connect	2023.3	fix		88202	GoldMine Web: ACCOUNTNO with a @ followed by a alphabetical character or number: Additional Contacts cannot be displayed - Server Error An error has occurred on the server. Please contact your system administrator.
Premium	2023.3	fix	E-Mail	91352	Certain emails with an invitation.ics file will crash GoldMine when the email is opened. The same happens when you try to import the ICS file.
Premium	2023.3	fix	E-Mail	91615	Hyperlinks in emails are changed and location does not open
Premium	2023.3	fix	E-Mail	91768	No Alternate SMTP server possible with OAUTH. When setting up a default sending account, it still takes the Office 365 Account SMTP Server
Premium	2023.3	fix	E-Mail	91999	Certain emails containing contentEditable=false still are not editable when replying to them.
Premium	2023.3	fix	E-Mail	92981	Since introducing email saved automatically as drafts, drafts are lost and instead appear under email templates
Premium	2023.3	fix	Constant Contact	93195	Constant Contact: The percentage information for Constant Contact campaigns seem not to match the figures and their calculation
Premium	2023.3	fix	Licensing	93980	Evaluation version has been removed from the Registration Wizard. A valid license is now required to license/relicense GoldMine
Premium	2023.2	fix	GoldMine Link for Microsoft Outlook	74381	GoldMine Link for Outlook: When Outlook has multiple email accounts active, Outlook Link links emails sent from non-default linking accounts
Premium	2023.2	fix	Activity List	91663	Activity list >> Closed Activities does not refresh when sorting is used after date, code or result >> Eventlog errors indicate Ambiguous column name 'ONDATE', 'ACTVCODE', 'RESULTCODE'
Premium	2023.2	fix	E-Mail	92202	Default email account changes sporadically, usually when replying to emails that were received from a different account
Premium	2023.2	fix	automated processes; E-Mail	92250	GoldMine crashes when running APs against several contacts and sending emails on behalf of someone else fails
Premium	2023.2	fix	automated processes; E-Mail	92339	Automated processes: Sending on behalf of another user fails with Unsuccessful Authentication after about one hour when OAUTH (Office 365 accounts) are used.
Premium	2023.2	fix	Scheduling Activities	92452	Scheduling a series of activities with a lot of contact records >> GoldMine crashes when skip weekends is selected
Premium	2023.2	fix	GoldMine Plus for Microsoft Office / Word	93265	Microsoft.ACE.OLEDB driver version in GoldMine Plus for Microsoft Word always defaults to 14 (Office 2010) although the majority of customers have Office 2016 or higher so it rather should be Microsoft.ACE.OLEDB.16.0
Premium	2022.4	new	GoldMine Link for Microsoft Outlook	new feature	Added the support for quiet mode installation with GoldMine Link as default setting for MS outlook
Premium	2023.1	fix	E-Mail	85274	Replying to certain emails with attachments that are stored as jpg, png files - will change the attachments to CID embedded pictures which are then not available for the recipient.
Premium	2023.1	fix	GoldMine Link for Microsoft Outlook	89988	GoldMine Link Outlook: Email link failed and log file shows Can't get the mail info! on certain emails
Premium	2023.1	fix	Installation	90418	Microsoft OLE DB Driver for SQL 19 is incompatible with GoldMine - MSADO connection layer reported the following error (ADO error descriptions depend on DB provider and are not always accurate): Provider cannot be found. It may not be properly installed.
Premium	2023.1	fix	E-Mail	90687	SSL Provider: The certificate chain was issued by an authority that is not trusted - when modifying the application server with a custom installation
Premium	2023.1	fix	Links	90915	Links Tab: Entries to folders with an ending parenthesis) - e.g. Test (2) - shows error File NOT found \server...\Test (2 - GoldMine dismisses the closing parenthesis
